

CHARTERED SURVEYOR REQUIRED

**Batcheller
Monkhouse**

Innovative Estate Management.

Excellent salary dependent on experience

Batcheller Monkhouse is an independent firm operating throughout the South East, with four offices across Sussex.

We operate in a wide range of disciplines, including estate agency, general rural professional work, rural estate management and telecoms.

A Chartered Surveyor is required to join the rural estate management team in the Pulborough office, to assist with the management of a variety of privately owned estates across the south east. There will also be a variety of general professional work. You will be required to join our existing team of seven qualified staff who operate from Pulborough.

The ideal candidate will have experience in rural surveying, and be RICS qualified. CAAV qualification would be an advantage but not a necessity. You will be able to work on your own initiative and have a strong commercial aptitude, with excellent communication skills. An innovative, modern and practical approach to the management of some forward looking and exciting Estates is essential.

Long term prospects are excellent and the successful candidate will have the opportunity to develop and further their own career within a young, expanding & professional team.
